Requests for additional service and requests for changes in service, upon acceptance thereof by the Company become a part of the original contract, except that each item of additional service so installed is subject to the appropriate minimum contract period. The acceptance or use of service may be deemed an application for such service and an agreement to pay for it at the rates applicable thereto under the current tariff. Any change in rates or regulations lawfully made, acts as a modification of all contracts to that extent without further notice.

Except as otherwise provided in other sections of this tariff, service is furnished for a minimum contract term of one month. The Company also reserves the right to refuse service to those applicants who are indebted to the Company for service previously rendered until the indebtedness is satisfied or payment arrangements made.

2. **Deposits**

When the Company determines an applicant is a credit risk or when the credit of an existing Customer has become doubtful, a Deposit may be required as security for the payment of future bills for service in accordance with the Company's written procedures for determining credit status. The Deposit requested will be in cash or the equivalent of cash and will be held as a guarantee for the payment of charges. A Deposit does not relieve the Customer of the responsibility for prompt payment of bills on presentation.

D. **BILLING AND PAYMENTS**(cont'd)

2. **Deposits**(cont'd)

After service has been established and credit history and treatment demonstrates that the original deposit is not sufficient to safeguard the interests of the Company, the Company may require an adjustment of the Deposit not exceeding the local service and toll charge average for a two (2) month period.

Deposits will be returned to depositors who shall have paid promptly undisputed bills during a period of twelve (12) consecutive months. When service is terminated, any balance of the Deposit including accrued interest remaining after deduction of all sums due the Company will be returned to the Customer. Interest is paid on all Deposits at a rate prescribed by the PA PUC

This tariff is in compliance with the regulations set forth in 52 PA Code Chapter 64, "Standards & Billing Practices for Residential Telephone Services."

3. **Charges for Fractional Months**

When service is established, discontinued or changed, the charge for service, equipment and facilities for the fractional part of the current billing month is a pro rata share of the monthly charge.

For purposes of administering this regulation, every month is considered to have thirty (30) days.

4. **Payment for Service**

The Customer is responsible for payment of all charges for service and facilities furnished by the Company to the Customer or its joint or authorized users. Objections must be received by the Company within thirty (30) days after statement of account is rendered, or the charges shall be deemed correct and binding upon the Customer. If an entity other than the Company imposes charges on the Company, in addition to its own internal costs, in connection with a service for which a Company non-recurring charge is specified, those charges may be passed on to the Customer.

D. **BILLING AND PAYMENTS** (cont'd)

4. **Payment for Service** (cont'd)

The Customer is responsible for the payment of any sales, use, gross receipts, excise, access or other local, state and federal taxes, charges, user fees, or surcharges (however designated) excluding taxes on the Company's net income imposed on or based upon the provision of Local Exchange Services, all of which shall be separately designated on the Company's invoices. Any taxes imposed by a local jurisdiction (e.g., county and municipal taxes) will only be recovered from those Customers residing in the affected jurisdictions. It shall be the responsibility of the Customer to pay any such taxes that subsequently become applicable retroactively.

A surcharge is imposed on all charges for service originating at addresses in states which levy, or assert a claim of right to levy, a gross receipt tax on the Company's operations in any such state, or a tax on interstate access charges incurred by the Company for originating access to telephone exchanges in that state. This surcharge is based on the particular state's receipts tax and other state taxes imposed directly or indirectly upon the Company by virtue of, and measured by, the gross receipts or revenues of the Company in that state and/or payment of interstate access charges in that state. The surcharge will be shown as a separate line item on the Customer's monthly invoice.

D. **BILLING AND PAYMENTS** (cont'd)

5. **Billing and Collection of Charges**

Bills will be rendered monthly to Customer.

All service, installation, monthly recurring charges and non-recurring charges are due and payable upon receipt.

The Company shall present bills for recurring charges monthly to the Customer, in advance of the month which service is provided. Usage charges will be billed in arrears.

For new Customers or existing Customers whose service is disconnected, the charge for the fraction of the month in which service was furnished will be calculated on a pro rata basis. For this purpose, every month is considered to have thirty (30) days.

Amounts not paid within thirty (30) days after the date of invoice are considered past due.

All bills rendered by the Company are due on the specified due date of each bill. A late payment charge of 1.25 percent of the overdue portion not including previously imposed interest of the unpaid balance and applicable federal excise tax will be charged to customer accounts with an unpaid balance carried forward on any bill.

A \$xx.xx charge will be assessed for checks with insufficient funds or non-existing accounts.

D. **BILLING AND PAYMENTS** (cont'd)

6. **Disputed Bills**

The Customer shall notify the Company of any disputed items on a bill within thirty (30) days of receipt of the bill. If the Customer and the Company are unable to resolve the dispute to their mutual satisfaction, the Customer may file a complaint with the Pennsylvania Public Utility Commission in, 400 North Street, Commonwealth Keystone Building, PO Box 3265, Harrisburg, PA 17105-3265 (phone number: 717-783-5187 or 1-800-782-1110 and fax number: 717/787-4750) in accordance with the Commission's rules of procedure.

The date of the dispute shall be the date the Company receives sufficient documentation to enable it to investigate the dispute.

The date of the resolution is the date the Company completes its investigation and notifies the Customer of the disposition of the dispute.

7. **Advance Payments**

To safeguard its interests, the Company may require a Business Customer to make an Advance Payment before services and facilities are furnished. The Advance Payment will not exceed an amount equal to the non-recurring charge(s) and three months' charges for the service or facility. In addition, where special construction is involved, the Advance Payment may also include an amount equal to the estimated non-recurring charges for the special construction and recurring charges (if any) over a period to be set between the Company and the Customer. The Advance Payment will be credited to the Customer's initial bill. An Advance Payment may be required in addition to a deposit.

D. **BILLING AND PAYMENTS** (cont'd)

8. **Allowances for Service Interruptions**

In compliance with 52 PA Code Chapter 64.52:

When main telephone service is interrupted for a period of at least 24 hours, the Company, after due notice by the Customer, shall apply the following schedule of allowances except in situations as provided in Paragraph 2:

- a. (1) 1/30 of the tariff monthly rate of all services and facilities furnished by the Company rendered inoperative by the Company to the extent of being useless for each of the first three (3) full twenty-four (24) hour periods during which the interruption continues after notice by the Customer of the Company's condition that the out-of-service extends beyond a minimum period of 24 hours.
- (2) 2/30 of each full twenty-four (24) hour period beyond the first three (3) twenty-four (24) hour periods. However, in no instance shall the allowance for the out-of-service period exceed the total charges in a billing period for the service and facilities furnished by the Company rendered inoperative to the extent of being useless.
- b. When service is interrupted for a period of at least twenty-four (24) hours due to such factors as storms, fires, floods or other conditions beyond the control of the Company, an allowance of 1/30 of the tariff monthly rate for all services and facilities furnished by the Company rendered inoperative to the extent of being useless shall apply for each full twenty-four (24) hours during which the interruption continues after notice by the Customer to the Company.

D. **BILLING AND PAYMENTS** (cont'd)

8. **Allowance for Service Interruptions** (cont'd)

Nothing contained herein and no tariff adopted hereto shall limit any responsibility or liability on the part of the telephone company to a Customer which would exist pursuant to law but for this rule and said tariff.

The foregoing allowances shall not be applicable where service is interrupted by the negligence or willful act of the Customer or where the Company pursuant to the terms of the contract for service suspends or terminates service for non-payment of charges or for unlawful or improper use of facilities or for any other reason provided for in the filed and effective tariff.

9. **Discontinuance of Service**

Upon non-payment of any amounts owing to the Company, the Company may, by giving requisite prior written notice to the Customer in accordance with 52 Pennsylvania Code §§64.61-64.123 discontinue or suspend service without incurring any liability.

Upon violation of any of the other material terms and conditions for furnishing service the Company may, by giving thirty (30) days prior notice in writing to the Customer, discontinue or suspend service without incurring any liability if such violation continues during that period.

D. **BILLING AND PAYMENTS**(cont'd)

9. **Discontinuance of Service**(cont'd)

Upon condemnation of any material portion of the facilities used by the Company to provide service to a Customer or if a casualty renders all or any material portion of such facilities inoperable beyond feasible repair, the Company, by notice to the Customer, may discontinue or suspend service without incurring any liability.

Upon the Customer's insolvency, assignment for the benefit of creditors, filing for bankruptcy or reorganization, failing to discharge an involuntary petition within the time permitted by law, or abandonment of service, the Company may, with prior notice to the Customer, immediately discontinue or suspend service without incurring any liability.

The Company may discontinue the furnishings of any and/or all service(s) to a Customer, without incurring any liability:

Immediately and without notice, if the Company deems that such action is necessary to prevent or to protect against fraud or to otherwise protect its personnel, agents, facilities or services. The Company may discontinue service pursuant to this subsection.

- a. The Customer refuses to furnish information to the Company regarding the Customer's credit-worthiness, its past or current use of common carrier communications services or its planned use of service(s); or
- b. The Customer provides false information to the Company regarding the Customer's identity, address, credit-worthiness, past or current use of common carrier communications services, or its planned use of the Company's service(s); or

D. **BILLING AND PAYMENTS**(cont'd)

9. **Discontinuance of Service**(cont'd)

- c. The Customer has been given ten (10) days written notice by the Company of any past due amount (which remains unpaid in whole or in part) for any of the Company's other common carrier communications services to which the Customer either subscribes or had subscribed or used; or
- d. The Customer uses, or attempts to use, service with the intent to avoid the payment, either in whole or in part, of the tariffed charges for the service by:
 - (1) using or attempting to use service by rearranging, tampering with, or making connections to the Company's service not authorized by this tariff; or
 - (2) using tricks, schemes, false or invalid numbers, false credit devices, electronic devices; or
 - (3) any other fraudulent means or devices; or
- e. Use of service in such a manner as to interfere with the service of other users; or
- f. Use of service for unlawful purposes.

Immediately upon notice to the Customer of any sum thirty (30) days past due;

Upon ten (10) days written notice to the Customer, after failure of the Customer to comply with a request made by the Company for security for the payment of service; or

D. **BILLING AND PAYMENTS** (cont'd)

9. **Discontinuance of Service** (cont'd)

Ten (10) days after sending the Customer written notice of non-compliance with any provision of this tariff if the noncompliance is not corrected within that ten (10) day period; or

Upon five (5) days written notice, excluding Sundays and holidays, for non-payment of a bill for service.

The suspension or Discontinuance of Service(s) by the Company pursuant to this section does not relieve the Customer of any obligation to pay the Company for charges due and owing for service(s) furnished during the time of or up to suspension or discontinuance.

Upon the Company's Discontinuance of Service to the Customer all applicable charges, including termination charges, shall become due. This is in addition to all other remedies that may be available to the Company at law or in equity or under any other provision of this tariff.

SERVICE CHARGES

A. **DEFINITIONS**

The term Service Charge is defined as the non-recurring charge or charges applying to the ordering, installing, moving, changing, rearranging and furnishing of telephone service and miscellaneous and supplemental equipment and other telephone facilities. The charges are separately established as follows in order to provide a reasonable basis for an equitable recovery of the costs incurred in the required operations.

1. **Service Order Charge**

Applicable for receiving information and taking action in connection with a Customer's or applicant's request.

2. **Premises Visit Charge**

Applicable for a required trip to Customer's premises in connection with establishment of service, rearrangement of service, or installation of Company owned equipment when requested by the Customer.

3. **Central Office Network Access Charge**

Applicable for testing and connecting functions required within the central office and for the work associated with the circuit extending from the serving central office to the protector on the Customer's premises.

4. **Work Charge**

Applicable for work done on the Customer's premises in connection with the installation, move or change of each item of Company owned equipment as specified in other sections of the tariff.

A. **DEFINITIONS** (cont'd)

5. **Restoration Charge**

Applicable for restoration of service following a temporary suspension of such service.

B. **APPLICATIONS**

1. **General**

Service charges are applicable to the establishment or changing of service, the assumption of service by a different Customer and the move of service from one premise to another.

Changes in locations or terminations to points outside the Customer's premises are considered new installations at the new location.

The non-recurring charge applicable for the establishment of Foreign Exchange Service is the total of those non-recurring charges applicable within the local and foreign exchanges.

The combination of charges applicable for a move or change of equipment or service will not exceed the charges applicable for a new installation of that equipment or service except as specified below.

B. **APPLICATIONS** (cont'd)

1. **General** (cont'd)

Incorporated in this section is the assumption that the Customer will allow the Company to complete the requested operations in a manner determined by the Company to be reasonable and efficient. When the Customer insists after thorough explanation by the Company of the additional charges which would be applicable that the Company carry out additional or extraordinary work which would not otherwise be required to complete the desired operation, charges in addition to those applicable as specified in this section may be applied. Additional work operations such as premises visits made to deliver new telephone number designations or additional service orders processed to effect multiple completion dates requested by the Customer will be charged for at the levels specified in C., Schedule of Charges. Other activity necessitated by requests of the Customer such as work during other than normal business hours will be charged for at levels not to exceed differential costs of labor. This provision in no way relieves the Company from the requirement of providing reasonable and efficient service at the charges specified in this tariff.

a. Service charges do not apply for:

- (1) normal maintenance and repair of the Company's equipment and service including work functions which are not required due to the Customer's request.
- (2) an upgrade or downgrade of class of service.
- (3) company initiated orders, e.g., a number change required by a cut-over or regrade, etc.

B. **APPLICATIONS** (cont'd)

1. **General** (cont'd)

- (4) record orders issued for corrective purposes.
- (5) change or correction in name or billing address for widows or widowers only when there is no connection, disconnection, move or change in service.
- (6) no service charges apply for disconnection, discontinuance or removal of equipment or service.
- (7) no service charge applies for the re-establishment of same or equivalent service as determined by the telephone company, for the same subscriber, at a location which has been destroyed or made untenable by fire, wind or water. Service charges do apply for establishment of service at a new location, or for re-establishment of service at the same location for other than the previous Customer.

2. **Service Order Charge**

Only one (1) Service Order Charge is applicable for requests for the same Customer made at one time, for service at one premise, with the same requested completion date.

a. Primary Service Order Charge

- (1) Applicable only for initial connection or establishment of telephone service.

B. **APPLICATIONS** (cont'd)

2. **Service Order Charge** (cont'd)

b. Secondary Service Order Charge

- (1) Applicable to all other Customer requests for installing, moving, changing or rearranging telephone service and miscellaneous Company owned equipment.

3. **Premises Visit Charge**

- b. For visits to each premises required due to the Customer's request.
- c. For each return visit to the Customer's premises which is required due to requests of or limitations imposed by the Customer.
- d. The Premises Visit Charge does not apply for:
 - (1) return trips to the same premises required due to time, equipment or service limitations of the Company.
 - (2) removal of Company owned equipment or service.

B. **APPLICATIONS** (cont'd)

4. **Central Office Network Access Charge**

a. The Central Office Network Access Charge applies to work performed in the central office and extending to the point of connection at the Customer's premises. The charge applies for work including but not limited to:

c. Central Office Network Access Charges do not apply for:

- (1) transfer of service from one Customer to another when there is no lapse in service.

5. **Work Charge**

a. A Work Charge is applicable for work done at the Customer's location in connection with the installation, move or change of each item of company-owned equipment or service as specified in other sections of the tariff.

A. **DESCRIPTION**

Optional calling services include the following central office-based call management services. The services are available to individual line Customers where Telephone Company facilities and Customer configuration permit.

1. **Call Waiting**

Call Waiting permits the Customer engaged in a call to receive a tone signal indicating a second call is waiting, and by operation of the switchhook to place the first call on hold and answer the waiting call. The Customer may alternate between the two calls by operation of the switchhook.

2. **Call Forwarding**

Call Forwarding permits the Customer to automatically transfer all incoming calls to a telephone number at another local or toll location. The Customer activates Call Forwarding by dialing a special code followed by the telephone number of the location to which calls are to be transferred. The service may be deactivated by dialing another code. The Customer must activate and deactivate this service from the station forwarding the calls. The Customer may still make outgoing calls while Call Forwarding is active, even while a transferred call is in progress. Calls cannot be answered at the base station while Call Forwarding is active.

A. **DESCRIPTION** (cont'd)

3. **Caller ID Service**

Caller ID is an optional central office software-based service offering which allows a Telephone Company subscriber the ability to view the calling party's telephone number on a subscriber-provided display unit. In cases where callers have either blocked their outgoing telephone number, or placed the call through an operator, the calling party's telephone number will not be displayed. In addition, Caller ID will only work when calls originate from and terminate within central offices connected by SS7 technology.

The telephone numbers that will be displayed on a Caller ID subscriber's display unit include listed, non-listed, and nonpublished telephone numbers.

Caller ID subscribers also have the ability to automatically reject incoming telephone calls which have been blocked. Through Anonymous Call Rejection (part of Caller ID Service), all incoming telephone calls which have the calling party's telephone number blocked will hear a recorded announcement indicating the Caller ID subscriber will not accept calls made from blocked telephone numbers; this is a free call.

a. **Service Availability**

Caller ID is offered as an optional service to single party residential subscribers, single line business and multiple incoming line trunk business subscribers. Caller ID is offered on a monthly subscription basis, and is provided only where facilities permit.

b. **Per-Line Blocking**

Customers requesting Per-Line Blocking will prevent the display of their telephone numbers on all outgoing calls. The Per-Line Blocking feature may be deactivated at any time by Customers on a call-by-call basis through the activation of a special code. Per-Line Blocking is provided free of any recurring charge, but is a special feature which must be ordered by Customers.

A. **DESCRIPTION** (cont'd)

3. **Caller ID Service** (cont'd)

b. Per-Line Blocking (cont'd)

The Telephone Company will initially install Per-Line Blocking at no charge. Requests to remove Per-Line Blocking on Customer lines will be completed at no charge. Subsequent requests to re-install Per-Line Blocking will be completed at prevailing Telephone Company non-recurring service order rates.

Per-Line Blocking will not prevent the display of originating telephone numbers to 9-1-1 emergency service providers.

c. Per-Call Blocking

Per-Call Blocking will prevent the display of Customers' telephone numbers on outgoing calls. This feature may be utilized at any time through the activation of a special code prior to dialing an outgoing call. Per-Call Blocking is provided at no charge, and is automatically placed on all telephone lines by the Telephone Company.

Per-Call Blocking will not prevent the display of telephone numbers to 9-1-1 emergency service providers.

A. **DESCRIPTION** (cont'd)

3. Caller ID Service (cont'd)

d. Special Provisions

In cases where Telephone Company Customers are victims of domestic violence, or are representatives of domestic violence agencies, or are representatives of emergency service agencies, calls placed through a live operator in order to protect the identity of the calling party will be completed without the application of an operator service charge.

Qualifying customers may need to notify the Telephone Company to request this credit if the operator service charge cannot be waived at the time the call is being placed.

Armstrong Telecommunications, Inc. is in compliance with the terms and conditions of the Public Utility Code, 66 P.A.C.S. Chapter 2906.

A. **DESCRIPTION** (cont'd)

4. **Three-Way Calling**

Three-Way Calling permits the Customer, by operation of the switchhook, to place an existing call on hold, dial the telephone number of a third party and establish a local or toll three-way conference call. The Customer may talk privately with the third party before establishing the three-way connection and may disconnect the third party to re-establish the original connection. The Customer's line establishing the conference call must remain open for the duration of the call or the connection for all callers will be terminated.

5. **Speed Calling**

Speed Calling permits the Customer to program up to eight frequently dialed numbers by dialing a one-digit code. This feature can accommodate local, toll, and long distance numbers. Customer uses a code to access the Speed Calling feature. Customer may change list whenever necessary.

A. **DESCRIPTION** (cont'd)

The following central office-based call management services forward the calling party's number to the terminating end, where facilities permit. The services work only on calls that originate from and terminate to appropriately equipped offices. These services provide a variety of subscription and usage-sensitive priced, user-programmable features that manage calls based on Customer input directions to the network. These services are automatically available to any single line Customer connected to the appropriately equipped offices. The Customer has various billing and/or blocking options for the use of these services.

6. **Repeat Call**

This service allows a calling party to redial the last telephone dialed, provided it is to a number in appropriately equipped offices. If that line is found busy, a 30-minute queuing process begins, and the Network automatically attempts to complete the call.

Residential customers can either pay-per-use so that a separate charge applies to each activation of this service; or subscribe to the service and incur a monthly charge for unlimited use. When the Customer pays-per-use, the usage charge applies each time the service is activated whether or not the called party answers. Business customers may subscribe to the service and incur a monthly charge for unlimited use.

7. **Return Call**

This service allows a calling party to automatically return the most recent incoming call. If that line is found busy, a 30-minute queuing process begins, and the Network automatically attempts to complete the call.

Residential customers can either pay-per-use so that a separate charge applies to each activation of this service; or subscribe to the service and incur a monthly charge for unlimited use. When the Customer pays-per-use, the usage charge applies each time the service is activated whether or not the called party answers. Business customers may subscribe to the service and incur a monthly charge for unlimited use.

A. **DESCRIPTION** (cont'd)

8. **Priority Call**

This service provides one distinctive audible signal to the called Customer when receiving a call from one of up to ten (10) prespecified telephone numbers. Through an interactive dialing sequence, the Customer creates a screening list of up to ten (10) telephone numbers in the switching machines. This list can only be created from and for telephone numbers located in appropriately equipped offices. When a call arrives from one of the pre-specified telephone numbers, the Priority Call rings distinctively. If the called Customer subscribes to call waiting, and the call arrives while the line is busy, the call waiting tone has a distinctive pattern. For calls from a dial tone line with multi-line hunting, the distinctive signal is only produced when the main telephone number has been entered in the screening list.

9. **Select Forward**

This service allows the Customer to select a maximum of ten (10) telephone numbers for forwarding. The Customer activates this service by dialing a code to create a screening list via an interactive dialing sequence. This list can only be created from and for telephone numbers located in appropriately equipped offices. Only calls from those telephone numbers in the screening list may be forwarded to the designated telephone number.

For calls from a line within multi-line hunting, the call is selectively forwarded only where the main telephone number has been entered in the screening list.

A. **DESCRIPTION** (cont'd)

10. **Call Block**

This service gives the Customer the ability to prevent future calls from specific telephone numbers and can be activated after receipt of an unwanted call or after entering a telephone number from which the calling party does not wish to receive future calls. To activate the service, the Call Block customer regains dial tone and dials a code, which creates a screening list for a maximum of ten (10) numbers. This list can only be created from and for telephone numbers located in appropriately equipped offices. Further calls to the Call Block customer from telephone numbers in the screening list are connected to an announcement stating that the called party is not accepting calls and the Call Block customer's telephone does not ring.

For calls from a line within multi-line hunting, the call is blocked only where the main telephone number has been entered in the screening list.

11. **Call Trace**

This service allows a called party to initiate an automatic trace of the last call received. Call Trace is available on a usage basis only. After receiving the call which is to be traced, the Customer dials a code and the traced telephone number is automatically sent to the Telephone Company. The Customer using Call Trace is required to contact the Telephone Company for further action. The Customer originating the trace will not receive the traced telephone number. The results of a trace will be furnished only to legally constituted authorities upon proper request by them.

The usage charge applies each time the service is activated.

A. **DESCRIPTION** (cont'd)

12. **Personal Ringing Service**

Personal Ringing Service enables an individual line subscriber to have up to two (2) telephone numbers (referred to as "dependent" numbers) assigned to one dial tone line in addition to the main number (referred to as the "master" number). Each number when dialed will result in a distinctive ring which facilitates the ability of the Customer to determine which number is being called. Where facilities permit, a distinctive call waiting tone for each telephone number will be provided for Customers who subscribe to Personal Ringing Service and call waiting. Personal Ringing Service is associated with incoming calls only and does not provide a separate dial tone line to place outgoing calls. Personal Ringing Service is only offered on a monthly subscription basis.

B. GENERAL TERMS

The following definitions apply to terms often used to describe operation of various optional calling services.

1. Activation

Activation requires dialing a code from the Customer's line and originating (activating) the corresponding service. For usage-billed service(s) activation causes an "activation" charge to be applied at that time. No activation charge applies when the Customer subscribes to a service on a monthly basis. When the Customer uses return call, repeat call, call trace on a pay-per-use basis, activation charges apply each time the service is activated.

2. Master and Dependent Telephone Numbers

The Master Telephone Number is the main telephone number provided with the dial tone line and associated with both incoming and outgoing calls. With personal ringing service, a Customer can purchase up to two (2) Dependent Numbers that are assigned to the Master Number. The Master Telephone Number and the Dependent Numbers are on one telephone line.

3. Distinctive Ringing and Distinctive Call Waiting Tone

With personal ringing service, Distinctive Ringing and Call Waiting tone patterns are assigned to the Dependent number(s) to distinguish incoming calls from those to the master number.

B. **GENERAL TERMS** (cont'd)

4. **Interactive Dialing Sequence**

2. General

The Service Access Code 9-1-1 allows the customer to reach the appropriate emergency services including police, fire and medical services. Enhanced 9-1-1 has the ability to selectively route an emergency call to the primary 9-1-1 provider so that it reaches the correct emergency service located closest to the caller. In addition, the Customer’s address and telephone information will be displayed to the primary 9-1-1 provider for display at the Public Answering Point (PSAP).

Pursuant to the Public Safety Emergency Telephone Act (Act 12 of 2015), the Telephone Company collects a fee from its customers on behalf of the counties in its operating area to support the 9-1-1 system. The Funding program includes a uniform 911 Contribution rate of \$1.65. The contribution rate may be used by counties for the expenses of implementing, expanding or upgrading a 911 system.

Parties dialing 9-1-1 waive the privacy afforded by non-listed and non-published service to the extent that the telephone number, names, and address associated with the originating station location are furnished to the Public Safety Answering Point. (C)
