Use **INPUT** to change your video source (EXP box, DVD player, etc.).

**GUIDE** takes you to the on-screen program guide.

Use **CHANNEL UP/DOWN** to change the channel or move quickly through lists and the guide.

“**i**” (INFO) brings up the full Info banner while watching a show, and opens an Info card when pressed on a tile in the SmartBar and What to Watch.

Use **EXIT** to close certain apps.

Press and release the **GOOGLE ASSISTANT** to issue voice commands.

Press the **GRID** button to jump to the Apps and Games screen.

Press the **NETFLIX** button to launch Netflix.

Use the **NUMBER BUTTONS** to directly enter channel numbers.

**POWER** turns both the television and the EXP device on and off.

**VOLUME AND MUTE** Controls the TV audio.

The **TIVO** button takes you to the Home screen.

When navigating the EXP menus, press **UP, DOWN, LEFT or RIGHT** to move around, and press the center button (OK) to choose menu items. While watching video, press OK to bring up the Info banner; press it again to pause. Use LEFT and RIGHT to access Restart, Rewind, Replay, Forward, and Advance. In live TV, press UP for the mini guide or DOWN to see the Info banner.

**BACK** starts full-screen video on the Home screen, and goes back to the previous screen on other menu screens.

Press **VOD** to go directly to the video on demand library.

REMOTE CONTROL ESSENTIALS

PAIRING
To control your EXP box with your voice, you must use an EXP voice remote that is paired correctly with your EXP box. Usually, the remote is paired when you insert the batteries, but if you are having trouble using voice commands, you may need to re-pair it.
1. TiVo Menu/Settings/Remote Settings. Pair your remote with your box.
2. Press and hold the TiVo button and BACK button simultaneously until the activity light at the stop of the remote illuminates.
3. Release the buttons. The activity light will flash slowly, then flash quickly five times.

VOICE COMMANDS
To issue a voice command, press and release the Google Assistant® button and speak naturally into the remote. You’ll see results from Google®, with additional results from the EXP service.
Here are some things you can do with voice:
• Search or browse: Say “Find Modern Family” or “Show me some action movies.”
  HINT: Add on to your initial command to get more specific. For example, after the command, “Show me some action movies,” you could add “Just the ones with Bruce Willis.”
• Launch an app: Say “Launch Netflix.”
• Go to a TiVo menu screen: Say “Take me home” or “Show me the Guide.”

TIPS & TRICKS
Press the TiVo button once to go to the Home screen.
While watching live TV or a recorded show, use your remote to bring up QuickView panels. UP shows you a mini guide; DOWN displays the Info Bar and Home menu.
Channel Up/Down does more than change the channel! It also pages up or down through lists of shows or menu items.
TalkBack is a voice guidance feature available free to EXP customers. It speaks the text on your screen making navigation of on-screen services and functions easier for customers with visual disabilities.
Press TiVo/Settings/Device Settings/Device Preferences/Accessibility/TalkBack = On or Off
